	CWSRF Loans <ul style="list-style-type: none">◆ FY '98 - \$1.35B◆ FY '99 - \$1.35B	Clean Water State Revolving Fund: Provides grants to all 50 states and Puerto Rico to capitalize their state loan funds. The funds are used to make low interest loans to communities, individuals and others for water-quality improvement activities. Traditionally the funds have been used for wastewater treatment facilities, however loans are used increasingly for other water quality management activities including nonpoint source and estuary projects. The CWSRF is currently funding approximately \$3 billion in water quality projects annually. Funds are allocated to the states using a formula established by Congress in the Clean Water Act (Sec. 205). There is a national tribal grant set-aside (.5% of appropriation). Regions administer the program, which gives grants to tribes to fund wastewater infrastructure projects.
	604 (b) Grants <ul style="list-style-type: none">◆ FY '98 - \$14.3M◆ FY '99 - \$14.2M	604 (b) Grants (Water Quality Management Planning) : Provides grants to states and water quality management agencies for water quality planning activities such as modeling, projections, assessments, performing TMDLs, basin management plans, etc. Eligible regional public comprehensive planning agencies (RCPO's) and Interstate Organizations (IO's) are directly allocated 40% of the funds.
	DWSRF Loans <ul style="list-style-type: none">◆ FY '98 - \$725M◆ FY '99 - \$775M	Drinking Water State Revolving Fund: Provides grants to all 50 states and Puerto Rico to capitalize state revolving loan funds used to make low interest loans to drinking water systems. Although a majority of the grant is intended for upgrades of drinking water infrastructure, states have the option to use a portion of the funds for preventing contamination and enhancing water systems management. Funds are allocated to the states using a formula derived from the most recent DW Needs Survey. Each state is guaranteed a minimum of 1%. There is a national tribal grant set-aside (1.5% of appropriation). Regions administer the program, which gives grants to tribes to fund drinking water infrastructure projects.
	DWSRF Set-asides <ul style="list-style-type: none">◆ Up to 31% of Cap. Grant	Drinking Water State Revolving Fund Set-asides: Up to 31% of the DWSRF capitalization grant may be used for set aside activities including loans for the acquisition of land or easements for source water protection or for implementation of source water protection measures, or direct assistance for wellhead protection programs.
	319 Grants <ul style="list-style-type: none">◆ FY '98 - \$105M◆ FY '99 - \$200M	319 Grants (Nonpoint Source Implementation): Provides grants to states and tribes to implement nonpoint source projects and programs. These include Best Management Practices (BMP) installation for animal wastes and sediment, pesticide and fertilizer control, stream bank restoration, lake protection/restoration, septic system system restoration and management, etc. All beneficiaries, except for tribes, are required to provide 40% of the total project or program costs.
	NEP/Coastal Watershed Grants <ul style="list-style-type: none">◆ FY '98 - \$12.3M◆ FY '99 - \$12.3M Est.	NEP/Coastal Watershed Grants (National Estuary Program): Primarily provides grants to estuaries designated as nationally significant by the EPA Administrator to improve water quality and protect and restore coastal resources through the development of Comprehensive Conservation and Management Plans. These plans characterize problems in estuaries, determine relationships between pollutant loading and impacts, and recommend solutions. Also supports training, information transfer, and technical assistance for other priority coastal watersheds.
	106 Grants <ul style="list-style-type: none">◆ FY '98 - \$95.5M◆ FY '99 - \$115M	106 Grants (Water Pollution Control Program Support): Provides grants to states, tribes and interstate water pollution control agencies to support the prevention and abatement of surface and groundwater pollution from point and nonpoint sources. Eligible activities include water quality planning, monitoring, permitting, surveillance, enforcement, advice and assistance to local agencies,etc. for the purpose of establishing and maintaining water pollution control programs.
	PWSS Grants <ul style="list-style-type: none">◆ FY '98 - \$93.8M◆ FY '99 - \$93.8M Est.	Public Water System Supervision Grants: Provides grants to state and tribal agencies for maintenance of primary enforcement programs to ensure public water system compliance with Safe Drinking Water Act (SDWA) requirements. Eligible projects include inventory of drinking water systems, technical assistance, sanitary surveys, data management, laboratory certification, enforcement, and emergency planning.

	Water Quality Co-op Agreements <ul style="list-style-type: none"> ◆ FY '98 - \$19M ◆ FY '99 - \$19M 	Water Quality Cooperative Agreements (104(b)(3) Grants) : Provides grants to support innovative demonstration projects for addressing stormwater, combined sewer overflows, sludge, pretreatment, mining, animal feeding operations, and other pollution sources relating to the National Pollutant Discharge Elimination System (NPDES) program. This includes research, investigations, experiments, training, surveys and studies related to the causes, effects, extent and prevention of pollution.
	Chesapeake Bay Program <ul style="list-style-type: none"> ◆ FY '98 - \$17.8M ◆ FY '99 - \$17M Est. 	Chesapeake Bay Program: Provides grants to state and local governments and nonprofit organizations for nonpoint source implementation of water quality monitoring, education, outreach, restoration and program support in the Chesapeake Bay Basin (Maryland, Pennsylvania, Virginia, and District of Columbia). Funds are allocated by formula grants of 30/30/30/10% to PA, VA, MD and DC respectively. In addition, States may be eligible for competitive project funding through the Program's subcommittees and competitive budget process.
	Wetlands Protection: Dev. Grants <ul style="list-style-type: none"> ◆ FY '98 - \$15M ◆ FY '99 - \$15M Est. 	Wetlands Protection: Development Grants: Provides financial assistance to states, tribes and local governments to support development or enhancement of wetland protection, management or restoration programs. Projects must demonstrate a direct link to an increase in the states, tribes, or local governments ability to protect wetland resources. Entities must provide a 25% match of the total cost of the project. Funding may only be used to enhance and develop new and existing state wetlands programs, not for their operational support.
	Conservation Reserve Program <ul style="list-style-type: none"> ◆ FY '98 - \$1.797B ◆ FY '99 - \$1.694B Est. 	Conservation Reserve Program: Voluntary program that offers long-term rental payments and cost-sharing assistance to establish protective covering on cropland and marginal pastureland. The land must be owned or operated by the applicant for at least 12 months, enrolled in the Water Bank Program (WBP), or contain other environmentally sensitive land. The program provides annual rental payments for up to 50%, not to exceed \$50,000, of the cost of establishing land cover.
	Watershed Protection Grants <ul style="list-style-type: none"> ◆ FY '98 - \$181M ◆ FY '99 - \$99M 	Watershed Protection & Flood Prevention: Provides grants to any governmental or non-profit entity for carrying out improvements to protect, develop, and utilize the land and water resources in small watersheds.
	Resource Cons. & Dev. Program <ul style="list-style-type: none"> ◆ FY '98 - \$34M ◆ FY '99 - \$35M 	Resource Conservation & Development Program: Provides technical assistance for planning and installation of approved projects in RC&D area plans, for land conservation, water management, community development, and environmental enhancement. Not a grant program, individuals work with local RC&D Councils to find funding.
	Wetlands Reserve Program <ul style="list-style-type: none"> ◆ FY '98 - \$236.8M ◆ FY '99 - \$94.1M 	Wetlands Reserve Program: Voluntary program to restore wetlands on private property. The program provides landowners with financial incentives and technical assistance to enhance, restore and protect wetlands in exchange for retiring marginal agricultural land. Participants must have owned the land for at least 12 months and it must be restorable and be suitable to provide wildlife benefits.
	WWD Grants & Loans <ul style="list-style-type: none"> ◆ '98 -DL\$734M, GL\$75M, G\$476M ◆ '99 -DL\$709M, GL\$75M, G\$504M 	Water and Waste Disposal Systems: Provides direct loans (DL), guaranteed loans (GL), and grants (G) to public entities, non-profit organizations and federally recognized Indian tribes in rural areas for water, sewer, and stormwater projects. Funds may be used for the installation, repair, improvement, and expansion of rural water and waste disposal facilities.
	EQIP <ul style="list-style-type: none"> ◆ FY '98 - \$200M ◆ FY '99 - \$176M 	Environmental Quality Incentives Program (NRCS): Voluntary locally-led conservation program that provides technical, education and financial assistance to farmers and ranchers who establish conservation practices and systems that will address soil, water, and related natural resource problems. Cost-sharing and incentive payments are provided through five to ten year contracts to help producers in complying with environmental laws and regulations, including clean water. Half of the available funds nationally are targeted to conservation associated with livestock operations. Projects are ranked to select those with highest environmental quality. Allocations to the states are based on the multi-faceted National Resources Inventory formula. There are sepecial emphasis EQIP funds for proposals on tribal lands.

	Wildlife Habitat Incentives Program <ul style="list-style-type: none"> ◆ FY '98 - \$30M ◆ FY '99 - \$20M 	Wildlife Habitat Incentives Program: Provides cost sharing agreements for the owner, operator or tenant of eligible lands; up to 75% of the total cost of establishing wildlife habitats can be provided. Financial and technical assistance are used to develop terrestrial, wetland, aquatic and other types of wildlife habitats.
	Watershed Surveys & Planning <ul style="list-style-type: none"> ◆ FY '98 - \$11.2M ◆ FY '99 - \$10.4M 	Watershed Surveys & Planning: Provides planning assistance to federal, state and local agencies for the development of coordinated water programs and related land resources in watersheds and river basins. Priority is given to solving problems of agricultural nonpoint sources, wetland preservation, and floodplain management.
	Abandoned Mine Reclamation <ul style="list-style-type: none"> ◆ FY '98 - \$142.3M ◆ FY '99 - \$145.3M 	Abandoned Mine Reclamation Program: Provides grants to states and tribes to correct environmental damage caused primarily by coal mining that occurred prior to August 3, 1977. The program provides for the restoration of eligible lands and waters mined and abandoned or left inadequately restored after mining. Appalachian Clean Streams Initiative is a sub-program which provides funding as seed money to accelerate the clean up of water pollution from abandoned coal mines. FY98 funding was \$2.5 million and has increased to \$7 million in FY99.
	Water Resources on Indian Lands <ul style="list-style-type: none"> ◆ FY '98 - \$9.8M ◆ FY '99 - \$13.4M Est. 	Water Resources on Indian Lands: Provides grants to assist federally recognized Indian tribes in the management, planning and development of water and related land resources.
	Coastal Zone Mgmt. Awards <ul style="list-style-type: none"> ◆ FY '98 - \$49.7M ◆ FY '99 - \$55.7M Est. 	Coastal Zone Management Awards (CZMA): Provides grants to coastal states and territories whose (CZMA) programs have been approved by the Secretary of Commerce. Program goals are broad based and include hazard mitigation, providing public access, protecting wildlife and fisheries habitats, and managing land uses that impact water quality. Program evaluation conducted every 3 years. State allocations are based on a formula including population and shoreline mileage. State match of 50% required for some programs.
	EDA PW & Infrastructure Grants <ul style="list-style-type: none"> ◆ FY '98 - \$178M ◆ FY '99 - \$160.2M Est. 	Economic Development Administration, Public Works and Development Facilities: Provides matching grants to public, tribal and non-profit entities to support long-term development and growth in distressed communities. This includes the funding of water and sewer projects primarily serving industry and commerce.
	Community Dev. Block Grants <ul style="list-style-type: none"> ◆ FY '98 - \$4.2B ◆ FY '99 - \$4.2B 	Community Development Block Grants: Provides grants to develop viable urban communities by providing housing and a suitable living environment. Activities may include water, sewer and other facilities. Entitlement communities must be either a central city in a Metropolitan Statistical Area (MSA), a city with population above 50,000 in the MSA or an urban county of at least 200,000 people. Funds are also awarded to States for distribution to smaller (non-entitlement) communities.
	Appalachian Regional Grants <ul style="list-style-type: none"> ◆ FY '98 - \$35M ◆ FY '99 - \$37M Est. 	Appalachian Regional Development: Provides grants to public and non-profit entities for water treatment systems, recycling facilities, and waste systems in the Appalachian Region.
